DEPOSIT DECLARATION

I, David L. Bernstein, on information and belief declare that:

1. I am a Senior Patent Attorney at Genetics Institute, Inc., the assignee of the above-mentioned patent application.
2. A culture of Chinese Hamster Ovary (CHO) cells designated "LA 3-5" containing amplified copies of DNA encoding a human Factor VIII:C protein lacking 880 amino acids from the region spanning the B domain (LA-2) was deposited on April 7, 1989 with the American Type Culture Collection, 12301 Parklawn Drive, Rockville, Maryland 20852 (USA), and the deposit meets the criteria set forth in MPEP 608.01(p)C.
3. Said culture has been accorded the accession number of CRL 10101 on April 7, 1989.
4. Said culture has been deposited under conditions which ensure that access to the culture will be available during the pendency of the above-identified patent application to one determined by the Commissioner to be entitled thereto.

5. Upon issuance of a patent on the above-identified patent application, Genetics Institute, Inc. will irrevocably remove any restrictions as to public availability of the culture deposit, and will replace the culture deposit should the depository be unable to distribute the sample upon a proper request, during the period that extends thirty years from the date of the deposit, or the period of the enforceable life of the patent, or the period of five years after the last public request for the deposit, whichever period is longest.

6. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true. These statements were made with the knowledge that willful false statements and the like so made are punishable by fine, imprisonment, or both, under section 1001 of Title 18 of the United States Code and that such willful statements may jeopardize the validity of this application or any patent issuing thereon.

Dated: April 7, 1989
